Re: **Post-Secondary Counselling Sector Survey in Distribution**

At the 87th CAUT Council meeting, delegates passed a motion resolving that CAUT initiate a cross-country survey of post-secondary counselling centres to identify issues facing counselling members in light of increasing demands for mental health services on campus.

To best assess the issues facing this group, CAUT is distributing a survey to individual counsellors and mental health professionals at post-secondary institutions across Canada. If your association has members who are counsellors or mental health professionals, they may already be part of this distribution list. If we have not obtained individual contact information for counsellors at your institution, we may contact your association for assistance with distributing the survey.

We expect the results of this survey to be made available to CAUT members this coming Fall.

If you have any questions about the survey, please contact CAUTresearch-rechercheACPPU@caut.ca.
