

Canadian Association of University Teachers
Association canadienne des professeures et professeurs d'université

Memorandum 22:28

Date: June 7, 2022

To: Presidents and Administrative Officers
Local, Provincial and Federated Associations

From: David Robinson, Executive Director

Re: **CAUT Collective Agreement Database**

CAUT maintains a searchable database of university and college collective agreements. The Collective Agreement Database (CAD) is a core service provided to member associations to assist in negotiations. The online portal contains full-text copies of members' current as well as select historical collective agreements. An assortment of agreements from non-CAUT member associations, including many from Quebec, can also be searched using the CAD.

Agreements can be browsed alphabetically or searched by title or free text. Searching can also be refined by using the filters on the left side of the screen. To see the most current agreements, make sure to click on "Current" in the *Version* filter.

The CAD can be accessed through the [CAUT members' website](#) or directly through [this link](#) where you will be prompted to login (the green box on the right-hand corner of the screen).

If you have any questions, need assistance accessing or using the CAD, or you do not see your association's agreement, please contact research@caut.ca.
